

Dear OLS families,

It is Boosterthon time at OLS!

The Boosterthon Fun Run is an interactive, community-based event that promotes three specific values: Fitness, Education, and Character. The goal of the Boosterthon is to raise funds that will be used to upgrade technology in the classroom as well as promote the above values in the lives of our students. In addition to helping OLS raise much needed funds, the Boosterthon team will lead a character initiative throughout the program, encouraging our students each day to “STAND UP” to change their world.

One thing you may not be aware of is what the Booster Team is able to do during their summer break with their portion of the funds raised! We encourage you to visit www.boostermissiontrip.com and see how the Boosterthon Fun Run is making a difference in our global community.

The Boosterthon Fun Run will kick off on **Wednesday, January 27th**. Please look for the Boosterthon Pledge Pack that will come home with your child on this day as well as watch the video to help answer any questions you may have. At the end of the nine day program, ALL students will participate in the Boosterthon Fun Run event which will take place on **Friday, February 5th**!

We are challenging parents to connect their students to potential sponsors who can pledge a dollar amount per lap or give a flat donation towards their student's Fun Run. Most students will run somewhere between 25-35 laps at the Boosterthon Fun Run while the lap cap is 35. All checks are made payable to the school, due one week after the Fun Run, and are 100% tax deductible.

If you have never been a part of the Fun Run, we hope you will join us on February 5. The kids love having the Booster Team on campus and really look forward to the day of the event. We are grateful to have such supportive families that are willing to help in so many ways and appreciate the investments you make in the lives of our students and our school.

Thanks for all you do to make OLS a great place to learn and grow.

Sincerely,

OLS PTO
